Release

The Office des Changes hosts a delegation of Swedish companies

The Office des Changes hosted, on Tuesday 14 April 2026, a delegation of representatives from Swedish companies on a working visit to Morocco, led by Her Excellency the Ambassador of Sweden to Morocco, Ms. Fredrika Ornbrant, and accompanied by representatives of Business Sweden as well as Swedish public financial institutions specialized in export support and international investment.

The meeting was held in the presence of representatives from the relevant directorates of the Ministry of Economy and Finance.

On this occasion, the Director of the Office des Changes, Mr. Driss BENCHIKH, presented the foreign exchange framework governing foreign investment in Morocco, emphasizing the key guarantees offered to investors, including freedom of investment, full convertibility for capital transactions, and the transfer of income and divestment proceeds.

Discussions highlighted a strong interest from Swedish companies in the Moroccan market, particularly in relation to the clarity and reliability of the mechanisms governing capital movements and profit repatriation.

Several participants expressed their intention to further expand their presence in Morocco, notably in sectors aligned with the Kingdom's strategic priorities, including energy transition and sustainable development.

This meeting reflects the Office des Changes' ongoing commitment to fostering a transparent and investor-friendly environment, and forms part of broader efforts to strengthen economic and financial ties between Morocco and Sweden.
